MOUSTAFA ABDULNABI
BIOMEDICAL ENGINNER

Summary

Fresh Graduate biomedical engineer, seeking a position to gain knowledge and skills and applying the current background to enhance the company.

Experience

Field service engineer intern
Sysmex - Riyadh | 2021-11 - Present

Sales Representative
Developers and Designers IT Compony | 2019-10 - 2019-11

Delivery Representative
Jollychic e-commerce platform | 2019-08 - 2019-09

Sales Representative
Hanan Zahra EST. | 2012-01 - 2014-01

Education

Bachelor of Engineering: Biomedical Engineering
Jordan University of Science and Technology, Jordan | 2015 - Present

Elements of AI Online Course
University of Helsinki

Skills

Courses: Electrical Circuit, Electronics, Microcontrollers and imbedded systems, AutoCAD.
Good knowledge in Multisim, Arduino IDE, Linux.
Good knowledge in Microsoft Office (Word, Excel, PowerPoint)
Basic Knowledge in Fusion 360, matLAB, HTML, PHP.
Self learning, Attention to details, Analytical skills, Dependable, Individual and Teamwork.

Projects

WIRELESS ECG IOT PROJECT
Graduation Project
Using a nodeMCU micro-controller and HTML, PHP, and a PC as a server, You can access the patients ECG from anywhere.

POWER SUPPLY
Using transformer, full wave bridge rectifier and voltage regulators.

HOME AUTOMATION WITH SIRI
Using an Arduino you can control AC devices with a relay connected to the blynk server.

SPO2 AND HEART RATE MONITOR USING ARDUINO
Biomedical Engineering Design Class Project
Using an Arduino Mega and MAX30100 Sensor.

SMART STREET LIGHT SYSTEM
Microcontrollers And Embedded Systems Class Project

Personal information

Place of birth
Jeddah
Birthdate
1996/10/07
Nationality
Palestine
